Daphne Utilities Receives Peak Performance Award

Daphne Utilities Water Reclamation Facility has been selected to receive a *Gold Peak Performance Award*. The *Peak Performance Awards* program presented by the National Association of Clean Water Agencies (NACWA) recognizes public wastewater treatment facilities for their outstanding compliance records in the 2015 calendar year. NACWA was proud to recognize 451 *Peak Performance Award* facilities during the Association's 2016 Utility Leadership Conference and 46th Anniversary Annual Meeting, held July 10-13, 2016 in Denver, Colorado.

The *Gold Peak Performance Awards* received by Daphne Utilities honors treatment works that have achieved 100 percent compliance with their NPDES permit for an entire calendar year.

"The Daphne Utilities Water Reclamation Facility is an outstanding example of environmental efforts. NACWA is honored to showcase the achievements of Daphne Utilities and our nation's public wastewater utilities through the *Peak Performance Awards Program*." Adam Krantz, NACWA's Chief Executive Officer.
