Hwy. 90 and Malbis Community
Co. Rd. 13 to Lawson Rd.

Daphne Utilities flushing program is a commitment to maintain water quality and fire flow protection for our community.

This is only a tentative schedule. Adjustments may be necessary due to the changing conditions of this operation. Therefore, some areas may take longer than others.

During flushing, low pressure and harmless discoloration may occur. This condition should clear in a few hours. If not, run outside faucet for 15 minutes to flush your service line. If conditions persist, please call Daphne Utilities at 626 -2628.

Thank you for cooperation.
